

## JOB PROFILE

### Brink Climate Systems Chief Technical Officer

Office:

Staphorst, near Zwolle (NL)

#### 1. BRINK CLIMATE SYSTEMS

"Our dream is to make you flourish in life by providing you with the most excellent air possible. Day in, day out".

At Brink Climate Systems over 250 committed and motivated colleagues are committed to this dream every day.

Brink Climate Systems B.V. is a developer and manufacturer of innovative solutions for excellent air to create a comfortable indoor climate. Good air is essential for our daily lives, it improves our health, makes us happier, gives us energy and it even extends our happiness.

Unfortunately, the air we breathe is not automatically the air we need. Brink's dream is to change that and make excellent indoor air accessible to everyone. With Brink's solutions for ventilation (HRV), heating, cooling, humidifying and fine dust filtering they can reach their common dream: provide people with the most excellent air possible.

Brink is an ambitious, dynamic and innovative (international) company that is part of the German Centrotec Group that is specialized in energy-efficient technology for buildings and is represented in over 50 countries. Brink itself also consists of multiple companies spread over four locations in the Netherlands, 1 in Germany, 1 in France and a production location in North-Macedonia.

Within all companies they strive for close collaboration to create synergy and to keep learning from each other, "Day in, day out".
